Key Findings

About the Digital Catalogues

Background Literature

Research Questions and Methods

Marketing and Demographics

How much traffic are the catalogues receiving?

13

Who is using the catalogues?

14

Why do users visit the catalogues?

15

How are users finding the catalogues?

16

How can the catalogues be marketed more effectively?

17

Are users accustomed to using digital scholarly resources like these catalogues?

18

**How much traffic are the catalogues
receiving?**

Who is using the catalogues?

Why do users visit the catalogues?

How are users finding the catalogues?

**How can the catalogues be marketed
more effectively?**

**Are users accustomed to using digital
scholarly resources like these
catalogues?**

Functionality and Design

What are users' first impressions of the catalogues?

20

Do users understand how to navigate the catalogues and find content of interest?

21

Which special digital features are most appreciated by catalogue users?

22

What are users' first impressions of the catalogues?

**Do users understand how to navigate
the catalogues and find content of
interest?**

Which special digital features are most appreciated by catalogue users?

Scholarly Content

What is the depth and breadth of a typical use session?

24

What kinds of content and information are most useful to users?

25

Do users have confidence in the catalogues' scholarship?

26

What special value do digital catalogues hold for users?

27

What other possibilities could digital platforms explore to serve users?

28

What is the depth and breadth of a typical use session?

**What kinds of content and information
are most useful to users?**

Do users have confidence in the catalogues' scholarship?

**What special value do digital catalogues
hold for users?**

What other possibilities could digital platforms explore to serve users?
